***Specification***

1. The abstract of the disclosure is objected to because of the legal term "said" on the last line. Correction is required. See MPEP § 608.01(b).

***Claim Rejections - 35 USC § 112***

2. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 is a repetition of a limitation of claim 7. It is unclear if the claim depends from the correct claim or just fails to further limit the independent claim.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Gerondale.

Gerondale shows a nozzle 7, neck seen in Figure 2; shoulder 2; aperture 8, 9; ring surrounded by 5; threads 16; cap 4; top and skirt seen in Figure 1; seat at 3; grooves 17; lip/seal means 5 or the portion engaging the ring after strip 5 has been removed.

Art Unit: 3754
